

Argentum Elixir (colloidal silver) kills the germs that cause sore throats. Colloidal silver is also a natural disinfectant. Colloidal silver is non-toxic to the body and can be taken orally to destroy foreign bodies, small viruses, bacteria of all kinds, and certain fungal diseases.

Colloidal silver is a powerful, natural, universal prophylactic and antibiotic. It is a natural disinfectant and broad-spectrum anti-microbial agent that kills bacteria, viruses, molds, fungi, parasites, and over 650 disease-causing organisms. A daily dose of colloidal silver improves the immune system resulting in more energy, vitality, quicker healing, and a reduction of bodily toxins. According to Dr. Robert O. Becker, author of "The Body Electric", silver deficiency is responsible for the improper functioning of the immune system. Because our soils are depleted by chemical fertilizers, silver is practically non-existent as a trace mineral in our foods. Research has shown a direct correlation between mineral and vitamin deficiencies and illnesses.

Active Ingredient: Argentum at 5 times 5x in a base of deionized water and citric acid.

Brings Balance

Colloidal silver is a wide-spectrum antibiotic, according to medical journals from around the world

Microorganisms depend on specific enzymes to breathe. Colloidal silver is a catalyst that disables these enzymes. This causes the microorganisms in their mutant forms to suffocate upon contact.

Since the microorganisms are suffocated rather than poisoned, resistant strains fail to develop.

Colloidal silver is a powerful disinfectant and healing agent that has numerous applications

The body doesn't develop a tolerance to silver. Colloidal silver is also extremely effective in the topical treatment of burns, abrasions, or any skin irritation/problem. Unlike antibodies, colloidal silver can be taken indefinitely without fear of microorganisms developing a tolerance to it.

Silver is essential to life

The human body should contain .001 microns of silver and researchers note that illness occurs more frequently when the level of silver drops below this point.

Is Unique

Argentum Elixir (colloidal silver) is a natural antibiotic and preventative against infections

Acting as a catalyst, it disables the enzyme that one-celled bacteria, viruses and fungi need for their oxygen metabolism. They suffocate without corresponding harm occurring to human enzymes or parts of the human body chemistry. The result is the destruction of disease-causing organisms in the body and in the food.

Processing

On-site laboratories are constantly monitored and tested by expert chemists and microbiologists to ensure consistent quality of raw materials, product batches, and finished products. Analyses are conducted to validate content and specifications, assuring high quality.

No Additives

This product contains no sugar, starch, salt, preservatives, artificial colors, flavors or additives, and no corn, wheat, yeast, soy, or milk derivatives.

FDA Drug Manufacturing Standards

MBi Nutraceuticals operates its own FDA licensed Drug Manufacturing facility. Our standard operating procedures are based on "Current Good Manufacturing Practices" as defined by the Food and Drug Administration. MBI ensures the highest quality nutraceuticals by applying our drug manufacturing procedures to every nutritional, herbal, food, homeopathic, and personal care product we make.

Synergistic MBI Products

Antisep+
Thymus Complex
Micell-A-25
C-1000 TR
Buffer-C
Bio-Thymus Drops
