

Support your kidneys and encourage proper functioning with **Renal Complex**. The kidneys are important in the control of urinary tract infections, bladder obstructions and bladder infections.

In homeopathy and nutrition, the law of similars applies. Like cures like. Kidney Complex contains raw kidney tissue for kidney support, and is mixed with herbs for the organic minerals and herbal factors that stimulate and activate vital target organs to enhance synergistic and catalytic physiological and biochemical responses. Kidney support is recommended in all hypertensive cases and primarily if there is a high diastolic blood pressure. If the kidneys are in a chronic degenerative condition, raw kidney tissue is very helpful. Constipation forces the system to put added stress on the kidneys, thus toxins reabsorb from the bowel and may overload the renal detoxificative system.

Brings Balance

Beta Carotene

Helps the body grow and repair tissues, and helps protect the soft tissue of the kidneys, bladder, and digestive tract. It also enhances immunity, and has antioxidant and anti-inflammatory properties.

Cranberry

Has been used for centuries to promote urinary tract health, and has long been recommended for those suffering from recurrent urinary tract infections. One key benefit it provides is to inhibit harmful bacteria from clinging to the surface cells of the urinary tract, allowing the bacteria to be eliminated.

Dandelion

Has been used for centuries to purify the blood and flush toxins out of the body by way of the liver and kidneys. It promotes bile flow and can help indigestion caused by insufficient bile production. The dried herb contains potassium, which acts as a diuretic and replaces the needed potassium to prevent cramps and edema.

Gravel Root

Is used to treat kidney stones, prostate gland problems, rheumatism, and gout, and is also been known to help with urinary infections, such as cystitis and urethritis.

Kidney tissue

Is a rich source of nutrients and enzymes that support kidney metabolism and physiological function.

Parsley

Is a natural diuretic, and has been used since ancient times to treat gastrointestinal disorders. The leaf contains essential oils, glycoside, magnesium, calcium, beta-carotene, flavonoids, vitamin K, and a large amount of vitamin C. It also contains chlorophyll, which has been shown to be important to healthy digestion.

Vitamin C

Detoxifies, strengthens the walls of the blood vessels, and provides nutritional support for connective tissue, collagen, and elastin.

Supplement Facts		
Serving Size: 1 Capsule		
Servings per Container: 60		
	Amount Per Serving	% Daily Value
Calories	12	<1%
Protein	0.5 g	1%
Beta-Carotene	500 IU	10%
Vitamin C	130 mg	216%
Kidney Tissue †	430 mg	**
Dandelion (root)	50 mg	**
Gravel Root (root)	50 mg	**
Parsley (leaves)	40 mg	**
Cranberry Juice (powdered)	50 mg	**

† New Zealand Freeze Dried Glandulars

Is Unique

Renal Complex contains imported, lyophilized freeze-dried New Zealand raw Kidney tissue

Glandular supplementation provides supplementation like no other combinations that help in tonifying specific organ tissues by providing the specific glandular nutrient combinations and the necessary enzymes for proper cellular health found only in glandulars.

The addition of Beta Carotene helps maintain the epithelial cells health and the herbs Dandelion Root, Gravel Root and Parsley keep the kidneys health and functioning properly.

Processing

MBi Nutraceuticals glandular products are produced from government inspected, range-grazed animals raised in New Zealand without the use of pesticides, hormones and antibiotics. Our glandulars are lyophilized (freeze-dried), which means the material is frozen, then subjected to a high vacuum that vaporizes moisture directly from the solid state, thereby maintaining their enzymatic vitality and nutritional potential.

No Additives

This product contains no sugar, starch, salt, preservatives, artificial colors, flavors or additives, and no corn, wheat, yeast, soy, or milk derivatives.

FDA Drug Manufacturing Standards

MBi Nutraceuticals operates its own FDA licensed Drug Manufacturing facility. Our standard operating procedures are based on "Current Good Manufacturing Practices" as defined by the Food and Drug Administration. MBI ensures the highest quality nutraceuticals by applying our drug manufacturing procedures to every nutritional, herbal, food, homeopathic, and personal care product we make.

Synergistic MBI Products

Hyper-Stallic
Hemo-Flo
